Action Planning

Marilyn Edelhoch, South Carolina Department of Social Services (facilitator)

This session will re-introduce the action planning activities and provide time for participants to ask clarifying questions.

Participants will break into working groups to address the action items deemed most critical by the group. Teams will be provided action-planning tools to support and facilitate their discussions. These tools will ask participants to capture their current strengths, challenges, opportunities, and resources -- both available and needed -- on the given topic. Participants will also be asked to commit to timelines and to serve as team member leads on specific goals.

The Action Planning exercise will also include specific focus on identifying and reaching out to a broad array of potential partners -- including those not present at the Roundtable.

12:00 – 12:30 PM

Action Planning Updates

Courtney Barthle, Welfare Peer TA Network (facilitator)

During this final action planning session, participants will provide the larger group with a brief overview of the plans formulated within each smaller working group. This serves three purposes: 1) to share the information with the group of stakeholders; 2) to secure additional project team members, as appropriate, and; 3) to allow the working group recommendations to benefit from the collective wisdom of the larger stakeholder group. Representatives from the highlighted programs will reflect on the proposed plans and next steps.
